PROFESSIONAL SUMMARY

The M.Sc. Information Technology student shows high motivation and attention to detail while building strong knowledge of Python programming and SQL databases and database management systems. The individual possesses expertise in data cleaning and analysis and visualization through Python library usage. I want to use my analytical abilities and problem-solving skills to create valuable information from data which will help businesses make better choices as a Data Analyst.

EDUCATION

M.Sc. of Information Technology

GLS University , Ahmedabad [Pursuing]

B.Sc. of Information Technology [March 2025]

Saurashtra University , Rajkot

Final CGPA: 7.61 | SGPA : 8.17 | First Distinction

HSC [Higher Secondary Certificate]

Shree Kanya Vidhyalaya – Rajkot

Percentage : 71.83% | Percentile : 90.15 PR

SSC [Secondary School Certificate]

Shree Kanya Vidhyalaya – Rajkot

Percentage : 78.29% | Percentile : 89.87 PR

PROJECT WORK

ZARIYAA JEWELRY VIRTUAL TRY-ON SYSTEM

Description :

Developed a web-based virtual jewellery try-on system that enables users to preview jewellery digitally before purchasing. The application includes an admin dashboard for managing jewellery products, customers, orders, and reports, providing an efficient and user-friendly shopping experience.

Key Responsibilities :

- Designed and managed the MySQL database for jewellery, customer, and order information.
- Developed CRUD operations for product and customer management.
- Wrote SQL queries to retrieve, update, and analyze data.
- Built an admin dashboard to monitor products, customers, and orders.
- Tested and debugged the application to improve functionality and performance.

Technologies Used : Python, SQL, MySQL, HTML5, CSS3

CAFE MANAGEMENT SYSTEM

Description :

Developed a desktop-based Cafe Management System using Python Tkinter and MySQL to manage menu items, customer orders, billing, and sales records through an interactive graphical user interface.

Key Responsibilities :

- Designed and developed the GUI using Python Tkinter.
- Integrated MySQL database for storing menu, customer, and order data.
- Implemented CRUD operations for menu and customer management.
- Developed order processing and automatic bill generation.
- Connected the application with MySQL using Python database connectivity.
- Tested, debugged, and maintained the application.

Technologies Used : Python . Tkinter (GUI) , MySQL , MySQL Connector for Python , SQL , XAMPP (MySQL Server)

INTERNSHIP

Web Design Intern | Loginus Infotech, Rajkot | Duration: September 2024 – March 2025

Key Responsibilities :

- Designed website layouts and improved visual appearance.
- Developed and modified website content using HTML and web panels.
- Created website design elements using graphic design tools.
- Performed website testing, quality assurance, and security checks.
- Followed modern web design trends and best practices.
- Gathered and implemented client requirements.
- Analyzed user needs and implemented website features using PHP.
- Designed templates and promotional web pages.

Skills Gained :

HTML | PHP (Basic) | Website Design | UI/UX Design | Website Testing | Content Management | Problem Solving | Teamwork

TECHNICAL SKILLS

- Data Analysis: Data Cleaning, Data Modeling
- Programming & Libraries: Python, Pandas, NumPy, SQL
- Databases: MySQL, MongoDB — schema design, query writing
- Tools & Platforms: Jupyter Notebook, VS Code, GitHub, Anti gravity, Google colab
- Core Concepts: Data Structures, Algorithms, Object-Oriented Programming, Problem Solving

ADDITIONAL INFORMATION

Languages : Gujarati | Hindi | English

Interests: Open-source contribution | competitive programming | keeping up with AI/ML and data analytics trends
